

Math 222 Assignment Grading

-The assignment box on the 3rd floor of CAB will be checked every Thursday at 5pm for Assignments that are due and Feedback Questions.

-The Assignment due dates are on the course outline; There is no specific due date for each feedback question. You should solve and hand in these problems throughout the semester. The last assignment's due date is the cut-off for feedback questions; after that point they cannot be handed in.

-The Assignments and Feedback Questions are scheduled to be returned within two weeks of when they were handed in.

-Each Assignment and Feedback Question will be graded by the following scheme:

- 10 – Perfect or almost perfect
- 5 – A good effort but not correct
- 0 – Little or no effort

-Each assignment has 10 questions and bonus question and therefore has a maximum score of 110/100.

-A running total of scores for the feedback questions will be kept.

-The assignments can be done in groups of up to three students. Each name needs to be recorded on the title page.
